

Creating with Clay – A Hands-On Adventure 13th Nov 2025

Nine of us gathered for a wonderfully creative session at Flourish, guided by the talented Becky. We began with nothing more than a ball of clay, and soon enough, the room was filled with the sound of rolling, shaping, and plenty of laughter.

From mugs and pots of all shapes and sizes (some incredibly decorated!), to a flan dish and, in my case, a charmingly wobbly flower pot – everyone brought their own creativity to the table. While none of us arrived as seasoned clay enthusiasts, a few were curious about trying the wheel next time!

All our clay creations have now gone off to be fired and glazed. We can't wait to see them in their finished form – it's like waiting for Christmas!

The workshop was such a success that several people have asked me to look into other artistic "Adventures" we could try together. Who knew playing with clay could spark so much inspiration?

A huge thank you to Becky for her guidance and patience, and to everyone who joined in and made it a fun and memorable day. Here's to many more creative Adventures together!
