

Electric Scooter Adventure – 30th July 2025

20 Active Adventurers made their way to Charlton Park Estate near Malmesbury for this event.

Following a safety briefing, we had test rides in a field to build up our confidence and master the controls.

We then headed off into the countryside of this historic 4500 acre estate along grassy paths and tracks, across fields and through woodland, passing Highland cattle, horses and other wildlife.

Some were slightly more adventurous making an unplanned visit to a corn field, getting close up with a tree heading straight for an irrigation boom!

We stopped to stretch our legs near the Charlton Manor House and learn a bit about the history of the estate (and the airfield!) from our guides. Then the power was turned up and we headed out across the fields at maximum speed.

After 10km of exploring the beautiful countryside, we returned our electric scooters (trikes) back to Baboon Adventures yard - without incurring any penalty charges for damages!
