

## **Orienteering**

Combe Hill 18<sup>th</sup> May 2025

Following on from last years successful event on Burrington Ham, Roger Vaughan plotted another course for us to find the markers and to reveal the clues. The weather was perfect with spectacular views across the landscape from the hill top. Teams of 3 and 4 strode out and all completed the task within 90 minutes . The gentle slopes and natural obstacles provided the energetic Active Adventurers with their days aerobic exercise. "Charlies Angels" won the day, with their sprint finish equal to any seen on "Race Around the World". Orienteering is really good exercise, great fun and certainly helps you to work up a thirst and a healthy appetite. Funny but nobody seems to have a problem finding a watering hole.
