

Rally Driving 19th March

On a glorious sunny March Day, a mixed group of 8 adventurers tested their skills with the **Cotswold Rally Driving Experience Co.** After the safety briefing and driving tips the 2 fully rally prepared Citroën C2s were given trial runs on the gravel circuit. The most important tips were not to touch the clutch (stay in 2nd), drive smoothly, followed by faster, faster, FASTER! Predictably this led to spins almost hidden from spectators by the clouds of dust. Then two sessions of 6 laps, with breaks to allow the adrenaline to dissipate! Finally, 2 timed runs, which produced more excitement and an impressive win by Steve (was he a rally driver in his youth?). A thoroughly enjoyable day for all which ended with the tip not to practice new skills on the way home!

Cotswold Driving Experience – same car different track/driver!
